

Calahex Staking Service Agreement

24th of January 2022

1. calahex.com launched a staking service on caladex.org for caladex users to obtain proceeds from idle crypto currency assets.
2. These staked assets will be used in crypto currency borrowing and other businesses.
3. When you use Calahex Staking Service, you will unconditionally authorize caladex.com to distribute the interest according to the rules of the platform.
4. You shall abide by the laws of your country to ensure that the assets are legitimate and compliant when using Calahex Staking Service.
5. When you use Calahex Staking Service, you recognize the risk of investment in crypto currency and operate cautiously.
6. You agree that all investment operations done on caladex.org represent your true intentions and that you accept all the potential risks and benefits of your investment decisions.
7. calahex.com reserves the right to suspend or terminate the Calahex Staking Service at any time.
8. In case of network delay, computer system failures and other force majeure, which may lead to delay or suspension or deviation of Calahex Staking Service execution calahex.com will use reasonable commercial effort to ensure but not promise that the Calahex Staking Service will run stable and effectively. calahex.com does not take any responsibility if the final solution does not match your expectations due to the abovementioned causes.

I have read and agreed to the Calahex Staking Service Agreement and agreed to use the Calahex Staking Service. I fully understand the risks involved and hereby confirm to use this service.
